Who are we?

The Cancer Support Group was established in the Balearic island to help both men and women in the expat community, who have been diagnosed with cancer.

The Cancer Support Group (CSG) wants to make sure that no one has to face cancer alone.

With our unique combination of physical and emotional support, we help you take back control and learn how to live well with your cancer. Our aim is to minimise the emotional effect cancer can have on families and their supporters.
